- ✓ Straight, low-profile form factor that helps maintain neat rack and workstation layouts
- ✓ Thumbscrew fastening for a secure physical connection and reduced accidental disconnection
- ✓ Only compatible with VGA connectors, ensure straight male-to-male orientation fits your setup

Product description

Why choose this gender changer?

Prokord Gender Changer HD15mA - HD15mA Low-Profile provides a compact, low-profile way to convert one male VGA connector to another. The metallic yellow finish makes it easy to spot in crowded cable runs. Its straight design saves space behind displays and in racks, helping you maintain tidy, reliable VGA connections and reduce setup time.

Prokord Gender Changer HD15mA - HD15mA Low-Profile in short:

- Compact low-profile VGA gender changer for tight spaces and behind thin displays
- Metallic yellow band for quick visual identification in complex cabling
- Straight, low-profile form factor that helps maintain neat rack and workstation layouts
- Thumbscrew fastening for a secure physical connection and reduced accidental disconnection
- Only compatible with VGA connectors, ensure straight male-to-male orientation fits your setup

Prokord Gender Changer HD15mA - HD15mA Low-Profile

Prokord Gender Changer HD15mA - HD15mA Low-Profile adapts one male VGA plug to another, so you can join or reorient existing VGA cables without changing equipment. It is designed for space-constrained installations and professional AV or IT environments. The distinctive metallic yellow band aids fast identification, and the unit is supplied as a single piece ready for immediate use.
