- ✓ White finish blends with modern devices and meeting-room equipment.
- ✓ Sold as a single unit, and check that your device supports USB-C video output.

Product description

Why choose this adapter?

Prokord USB-C - HDMI Adapter 0.15m 4Kx2x@60Hz USB-C Charge is a compact adapter that lets you connect a USB-C laptop or tablet to an HDMI display while charging the host device. It delivers 4K (3840 x 2160) at 60 Hz for clear video and helps reduce cable clutter in meeting rooms, desks, and mobile setups.

USB-C - HDMI Adapter 0.15m 4Kx2x@60Hz USB-C Charge in short:

- Delivers ultra HD 4K video at 60 Hz for smooth presentations and video playback.
- Pass-through USB-C port lets you charge the connected device while outputting HDMI video.
- Very short 0.15 m cable keeps connections tidy and is convenient for close-proximity setups.
- White finish blends with modern devices and meeting-room equipment.
- Sold as a single unit, and check that your device supports USB-C video output.

Main functions

The Prokord USB-C - HDMI Adapter converts a USB-C video output to an HDMI input, suitable for connecting laptops, tablets, or other USB-C devices to TVs, monitors, and projectors. It supports 3840 x 2160 resolution at 60 Hz for detailed images and smooth motion. The adapter includes a USB-C charging port so you can power your device during use, and its short cable and compact housing make it easy to carry and store.
