

Universal Cable Sock 40mm X 1000mm Black

Data sheet

Summary

- ✓ Black braided sleeve, 40 mm diameter and 1000 mm length, supplied as one piece per pack, for neat cable bundling.
- ✓ Expandable weave adapts to mixed cable sizes and eases routing through tight spaces.
- ✓ Protects cables from abrasion and reduces tangling while maintaining ventilation.
- ✓ Simple to cut to length and fit, suitable for patch panels, server racks, AV setups, and workstation runs.
- ✓ Check that a 40 mm diameter suits your cable bundle before purchase.

Product description

Why choose this cable sock?

Prokord Universal Cable Sock 40mm X 1000mm Black helps you keep cable runs tidy and protected in racks and workspaces. Its braided, expandable design makes installation quick, reduces abrasion and tangling, and allows airflow to help manage heat around bundled power and data cables.

Universal Cable Sock 40mm X 1000mm Black in short:

- Black braided sleeve, 40 mm diameter and 1000 mm length, supplied as one piece per pack, for neat cable bundling.
- Expandable weave adapts to mixed cable sizes and eases routing through tight spaces.
- Protects cables from abrasion and reduces tangling while maintaining ventilation.
- Simple to cut to length and fit, suitable for patch panels, server racks, AV setups, and workstation runs.
- Check that a 40 mm diameter suits your cable bundle before purchase.

Product details

The Prokord Universal Cable Sock 40mm X 1000mm Black is a flexible braided sleeve designed to bundle and protect power, data, and multimedia cables. You can slide cables into the sleeve or wrap it around existing runs, then trim it to the required length. Its black finish blends with typical equipment racks and desks, making it useful for both visible and enclosed installations.
