- ✓ Intended for indoor use; sold as a single unit per pack.

Product description

Why choose this in-table wireless charger?

Cirafon In-Table Wireless Charger is a compact, USB-powered charging pad designed for convenient, low-profile installation in desks and meeting-room tables. It reduces cable clutter, makes it simple for guests and staff to charge smartphones, and fits easily into existing AV or furniture setups for reliable everyday use.

In-Table Wireless Charger in short:

- Provides wireless charging for compatible smartphones, ideal for meeting rooms, reception areas, and workstations.
- Designed for in-table installation to create discreet, accessible charging points.
- USB power source works with common USB outlets and AV power systems.
- Includes a 1.5 m cable for flexible placement during installation.
- Intended for indoor use; sold as a single unit per pack.

How it works

The Cirafon In-Table Wireless Charger offers contact charging when a compatible smartphone is placed on the pad. The USB-powered design connects easily to standard power supplies or integrated table AV outlets. Its low-profile, round form keeps the surface unobtrusive while providing an immediate charging point where you need it.
