

Privacy Filter 31.5" 16:9

Data sheet

Summary

- ✓ Protects sensitive on-screen information by narrowing the viewing angle, useful in open-plan offices and public areas.
- ✓ Designed for 31.5" 16:9 widescreen monitors with a black framed finish that matches most bezels.
- ✓ Visible top cutout for webcam access, keeping camera use available while maintaining privacy.
- ✓ Scratch resistant surface and easy-to-clean coating for everyday use.
- ✓ Compliant with CE and REACH; installation uses adhesive strips plus slide-mount tabs for alignment.

Product description

Why choose this framed display privacy filter?

Cirafon Framed Display Privacy Filter helps protect on-screen data from side glances while keeping your display clear for the user. It fits 31.5-inch 16:9 widescreen monitors and uses a slim black frame that resists scratches and cleans easily. Installation uses adhesive strips and slide-mount tabs for a secure, aligned fit.

Cirafon Framed Display Privacy Filter in short:

- Protects sensitive on-screen information by narrowing the viewing angle, useful in open-plan offices and public areas.
- Designed for 31.5" 16:9 widescreen monitors with a black framed finish that matches most bezels.
- Visible top cutout for webcam access, keeping camera use available while maintaining privacy.
- Scratch resistant surface and easy-to-clean coating for everyday use.
- Compliant with CE and REACH; installation uses adhesive strips plus slide-mount tabs for alignment.

Cirafon Framed Display Privacy Filter — product details

The Cirafon Framed Display Privacy Filter reduces side visibility so only the person directly in front of the monitor can clearly read the screen. The framed design adds a tidy, finished look and includes a top cutout to accommodate the webcam without removing the filter. It is made to fit 31.5-inch 16:9 screens and installs with adhesive strips and slide-mount tabs for precise placement. The surface is scratch resistant and easy to clean, and the product meets CE and REACH compliance standards.
