

Numpad 611W

Data sheet

Summary

- ✓ Designed for fast numeric data entry, ideal for accounting, invoicing, and spreadsheet workflows.
- ✓ Full numeric layout with tactile keys and 1.8 mm travel for comfortable, responsive typing.
- ✓ Simple USB-A connection and 1.8 m cable for flexible placement without extra drivers.
- ✓ LED indicators show Num Lock status for clear feedback during work.
- ✓ Note that the keypad is wired and uses standard ABS keys, so it is not silent and not suitable if you need a wireless or hot-swappable solution.

Product description

Why choose this numpad?

Voxicon Numpad 611W is a compact, wired numeric keypad that speeds up data entry and reduces errors when working with spreadsheets and accounting software. It connects via USB-A for plug-and-play setup, offers a full numeric layout in a small footprint, and provides a dependable, low-maintenance option for desktop or laptop users who need dedicated numeric input.

Numpad 611W in short:

- Designed for fast numeric data entry, ideal for accounting, invoicing, and spreadsheet workflows.
- Full numeric layout with tactile keys and 1.8 mm travel for comfortable, responsive typing.
- Simple USB-A connection and 1.8 m cable for flexible placement without extra drivers.
- LED indicators show Num Lock status for clear feedback during work.
- Note that the keypad is wired and uses standard ABS keys, so it is not silent and not suitable if you need a wireless or hot-swappable solution.

Efficient numeric entry

The Numpad 611W gives you a dedicated block of keys that reduces the need to reach across a laptop keyboard. Keys are arranged for familiar numeric workflows and include Num Lock and basic function keys to streamline common tasks. The keypad works with Windows systems and installs without software, so you can plug it in and start entering numbers right away.

Built for everyday use

Voxicon designed this keypad to be straightforward and durable. The ABS construction and compact dimensions make it easy to carry with a laptop or keep on a crowded desk. The unit is lightweight and certified to CE and RoHS standards, offering a practical, compliant option for offices and shared workstations.
