

USB 3.0 Hub 4-Port

Data sheet

Summary

- ✓ Adds four USB-A ports, useful for external drives, keyboards, mice, and other peripherals.
- ✓ USB 3.2 Gen 1 Type-A interfaces for faster data transfer compared with USB 2.0, suitable for backing up files and using external storage.
- ✓ Compact, silver design fits alongside laptops and docking setups without taking much desk space.
- ✓ Short 0.15 m integrated cable keeps the hub close to your computer, so consider placement when connecting to a distant host.
- ✓ Lightweight and portable for use between office and remote work locations.

Product description

Why choose this USB 3.0 hub?

Prokord USB 3.0 Hub 4-Port expands one USB-A port into four USB 3.2 Gen 1 Type-A ports, giving you more connection options for drives, peripherals, and accessories. Its slim silver housing and short cable keep your workspace tidy while placing additional ports within easy reach for everyday tasks and data transfers.

USB 3.0 Hub 4-Port in short:

- Adds four USB-A ports, useful for external drives, keyboards, mice, and other peripherals.
- USB 3.2 Gen 1 Type-A interfaces for faster data transfer compared with USB 2.0, suitable for backing up files and using external storage.
- Compact, silver design fits alongside laptops and docking setups without taking much desk space.
- Short 0.15 m integrated cable keeps the hub close to your computer, so consider placement when connecting to a distant host.
- Lightweight and portable for use between office and remote work locations.

Design and build

The Prokord USB 3.0 Hub 4-Port has a low-profile, silver enclosure that blends with modern laptops and workstations. At just 63 grams and slim dimensions, it slips into a laptop bag or accessory pouch. The flat shape helps it sit neatly on a desk or next to a docking station.

Connectivity and everyday use

This hub provides four USB 3.2 Gen 1 Type-A ports so you can connect multiple peripherals and external storage devices without swapping cables. The USB-A host connector is ready for systems with standard USB-A ports. The layout places ports along the side for easy access, which helps when you need to plug and unplug devices frequently.

Practical considerations

Because the hub uses a short integrated cable, place it close to the host device for the best fit. The hub is a straightforward way to increase port availability and simplify cable management. It is sold as a single unit, making it easy to add a compact expansion point to your workstation setup.
