Data sheet

Summary

- ✓ 10 m cable length for reaching distant wall sockets without extra extensions.
- ✓ Four grounded Type F outlets, suitable for European equipment and multiple devices.
- ✓ Angled Type F plug reduces strain behind furniture and fits low-clearance sockets.
- ✓ Reel design with carrying handle keeps the cable organized and easy to transport.
- ✓ Intended for indoor use only, so do not use it in wet or outdoor conditions.

Product description

Why choose this cable reel?

Prokord Cable 4 Contacts Temp.Fuse 10.0m is a compact extension reel that helps you deliver power to multiple devices while keeping cables tidy. It combines a 10 m reach with four grounded Type F outlets and built-in input-fuse protection, making it useful for indoor maintenance tasks, temporary office layouts, and workshop setups.

Prokord Cable 4 Contacts Temp.Fuse 10.0m in short:

- 10 m cable length for reaching distant wall sockets without extra extensions.
- Four grounded Type F outlets, suitable for European equipment and multiple devices.
- Angled Type F plug reduces strain behind furniture and fits low-clearance sockets.
- Reel design with carrying handle keeps the cable organized and easy to transport.
- Intended for indoor use only, so do not use it in wet or outdoor conditions.

Practical design

The reel keeps the cable neatly wound when not in use, which reduces trip hazards and simplifies storage. The carrying handle makes it easy to move between rooms or job sites. Four recessed outlets let you power several devices at once without cluttering the workspace.

Safety and use

The integrated input fuse provides basic protection against overload and overheating, helping protect connected equipment during temporary power distribution. The angled plug and Type F outlet compatibility make installation straightforward in European indoor environments. Use it for short-term power needs in offices, meeting rooms, workshops, and service tasks.

Technical Specification Matrix
