

Prokord TL-004

Data sheet

Core Specs

Cable length	3 m
Connector 1	TOSLINK
Connector 2	TOSLINK
Product colour	Black

Summary

- ✓ 3m fiber optic cable delivers interference free digital audio
- ✓ Straight male TOSLINK connectors ensure quick plug and play
- ✓ Fiber construction reduces signal loss and keeps audio clear
- ✓ Durable black jacket withstands everyday use in AV setups
- ✓ Ideal for home theaters, offices, and professional AV installs

Product description

Why choose this optical fiber AV cable?

Prokord Optical Fiber Av Cable 3.0m delivers reliable, low-loss digital audio and video transfer for home and commercial AV systems. Its fiber optic design reduces electromagnetic interference and preserves signal clarity over its 3.0 m length. Straight male TOSLINK connectors make installation quick and compatible with most TVs, soundbars, receivers, and professional AV equipment.

Prokord Optical Fiber Av Cable 3.0m in short:

- Fiber optic core provides interference-free digital audio and video transmission.
- Straight male TOSLINK connectors for plug-and-play connections with common AV devices.
- 3.0 m length suits living rooms, meeting rooms, and AV rack setups.
- Black jacket keeps the cable discreet when routed along walls or behind equipment.
- Consideration: not ideal for installations that require highly flexible or coiled cable, and incompatible with non-TOSLINK ports.

Prokord Optical Fiber Av Cable 3.0m

This cable uses a fiber optic core to keep digital signals clear and stable, making it suitable for connecting TVs, receivers, soundbars, and audio interfaces. The straight male TOSLINK ends provide a secure fit and straightforward setup. The 3.0 m length offers practical reach for most room layouts, while the black jacket helps keep the installation unobtrusive.
