

Prokord TL-006

Data sheet

Core Specs

Cable length	10 m
Connector 1	TOSLINK
Connector 2	TOSLINK
Product colour	Black

Summary

- ✓ 10m fiber length lets you place devices farther without signal loss
- ✓ TOSLINK male to male connectors ensure secure, easy connections
- ✓ Fiber optic material resists EMI, keeping audio clean over distance
- ✓ Straight connector form factor fits standard TOSLINK ports quickly
- ✓ Durable black jacket blends into pro and home AV setups

Product description

Why choose this cable?

Prokord Optical Fiber Av Cable 10.0m gives you a stable digital audio link for setups that need low interference and consistent signal over distance. The 10 metre fiber design maintains signal integrity, while straight male TOSLINK connectors on both ends make installation fast and secure in typical AV and gaming setups.

Prokord Optical Fiber Av Cable 10.0m in short:

- Fiber optic construction reduces electromagnetic interference for clearer digital audio.
- 10 m length suits living room, media cabinet, and AV rack connections.
- Straight, male TOSLINK connectors on both ends for simple plug-and-play fitting.
- Black jacket blends into most AV installations and cable runs.
- Consider that this cable is for devices with TOSLINK ports and not intended for outdoor exposure.

Product details

This Prokord Optical Fiber Av Cable 10.0m transfers digital audio signals over a 10-metre run using fiber optic transmission to minimise signal degradation. The straight male TOSLINK connectors provide a snug connection to compatible equipment, so you can expect a reliable fit and reduced connection issues during setup. The cable is best used indoors in home theatre, gaming, or professional AV installations where interference resistance and clean audio are important.
