Product description

Why choose this docking station?

Prokord Workplace No Charging Dockningsstation 5K gives you a compact way to turn a laptop into a full desktop setup. It supports high-resolution displays and provides multiple USB ports and gigabit Ethernet for reliable peripherals and wired network access. The small footprint and durable housing make it easy to add connectivity without clutter.

Workplace No Charging Dockningsstation 5K in short:

- Add two external monitors with high-resolution output using the DisplayPort 1.4 and HDMI 2.0 ports, suitable for multitasking and content review.
- Multiple USB ports and a headphone jack let you connect keyboards, mice, external drives, and audio devices while keeping cables tidy.
- Built-in gigabit Ethernet ensures a stable wired connection for video calls and large file transfers.
- Includes USB Type-C and USB Type-C to USB Type-A cables for flexible host connections and works with both Windows and Mac systems.
- Purchase note: this dock does not provide power delivery to charge a laptop, and it uses a USB-A host interface option, so check your device's video-over-USB capabilities before buying.

Product details

The Workplace No Charging Dockningsstation 5K is a wired docking station designed to expand connectivity at your desk or in meeting rooms. It combines two video outputs, several USB-A ports plus one USB-C port, a headphone output, and a single RJ-45 gigabit Ethernet port so you can connect displays, peripherals, and wired network in one place. An on/off switch and a compact, black thermoplastic elastomer housing keep the setup clean and easy to manage. Cables are included for quick installation.

Technical Specification Matrix

Header

Manufacturer	Prokord
--------------	---------

Ports & interfaces

Connectivity technology	Wired
Host interface	USB-A
USB 3.2 Gen 1 (3.1 Gen 1) Type-A ports quantity	6
