

USB-C To Hub 4-Port 3.0

Data sheet

Summary

- ✓ Four USB 3.2 Gen 1 Type-A ports for connecting storage, input devices, and accessories.
- ✓ Uses a USB-C 3.2 Gen 1 host connection, matching common laptop and tablet ports.
- ✓ Slim, silver design fits on a desk or in a laptop bag for mobile use.
- ✓ Useful for copying large files, attaching peripherals, and consolidating cable clutter.
- ✓ Check that your USB-C port supports data transfer, not only charging.

Product description

Why choose this USB hub?

Prokord USB-C To Hub 4-Port 3.0 expands a single USB-C host port into four USB-A 3.2 Gen 1 ports, so you can connect multiple peripherals without swapping cables. The slim silver finish keeps your workspace neat while providing reliable data transfer for external drives, flash drives, mice, and keyboards.

Prokord USB-C To Hub 4-Port 3.0 in short:

- Four USB 3.2 Gen 1 Type-A ports for connecting storage, input devices, and accessories.
- Uses a USB-C 3.2 Gen 1 host connection, matching common laptop and tablet ports.
- Slim, silver design fits on a desk or in a laptop bag for mobile use.
- Useful for copying large files, attaching peripherals, and consolidating cable clutter.
- Check that your USB-C port supports data transfer, not only charging.

Main functions

The hub provides four USB-A ports that let you attach multiple devices to a single USB-C port. USB 3.2 Gen 1 connectivity supports higher data rates than legacy USB 2.0 ports, which helps when moving files to and from external drives or working with USB peripherals that need more bandwidth.

Practical use and setup

You connect the hub to a compatible USB-C port and plug your peripherals into the Type-A sockets. The compact silver form keeps cables organised and makes it easy to add ports on laptops, small-form desktops, or docking setups when you need extra USB connections.

Technical Specification Matrix
