

Privacy Filter Macbook Magnet15.4" 16:10

Data sheet

Summary

- ✓ Magnetic attachment for quick, tool-free installation and removal, designed for landscape use.
- ✓ Narrows the visible angle to 60 degrees to keep sensitive information private in open offices and public areas.
- ✓ Anti-glare surface with scratch- and fingerprint-resistant coating to improve viewing and reduce maintenance.
- ✓ Sized for 15.4" MacBook widescreen models with 16:10 aspect ratio, compatible with MacBook (2013-2015); black framed design complements the laptop.
- ✓ Compliant with REACH and CE; check your MacBook model and screen size before purchase.

Product description

Why choose this framed display privacy filter?

Cirafon Privacy Filter Macbook Magnet helps protect on-screen data when you work in public or shared spaces. It reduces side viewing to limit visual eavesdropping, lowers reflections for clearer viewing in bright environments, and adds a durable, fingerprint-resistant surface to preserve your laptop display.

Privacy Filter Macbook Magnet in short:

- Magnetic attachment for quick, tool-free installation and removal, designed for landscape use.
- Narrows the visible angle to 60 degrees to keep sensitive information private in open offices and public areas.
- Anti-glare surface with scratch- and fingerprint-resistant coating to improve viewing and reduce maintenance.
- Sized for 15.4" MacBook widescreen models with 16:10 aspect ratio, compatible with MacBook (2013-2015); black framed design complements the laptop.
- Compliant with REACH and CE; check your MacBook model and screen size before purchase.

How it helps

The Privacy Filter Macbook Magnet attaches to the bezel and creates a discreet privacy barrier without affecting your normal viewing when seated in front of the screen. It reduces glare and reflections so you can work comfortably in bright conditions, and the hard-coated frame protects the display from scratches while resisting fingerprints. This makes it practical for travel, cafes, open-plan offices, and any setting where screen privacy and display care matter.

Technical Specification Matrix
