cirafon

Privacy Filter Macbook Magnet2019)12" 16:10

Data sheet

Summary

- ✓ Magnetic frameless privacy filter designed for 12" MacBook 2019 with 16:10 aspect ratio, fits LCD displays.
- ✓ Anti-reflective and fingerprint-resistant surface keeps your screen clearer during travel, meetings, and open-office work.
- ✓ Scratch-resistant protection preserves the display finish while staying discreet and lightweight.
- ✓ Landscape orientation limits side viewing angles to protect confidential information from passersby.
- ✓ Check that your MacBook model is the 12-inch 2019 with 16:10 screen before purchase.

Product description

Why choose this privacy filter?

Cirafon Privacy Filter Macbook Magnet2019 helps keep on-screen information private without affecting your view. It attaches magnetically for quick, tool-free fitting and removal, while anti-reflective and fingerprint-resistant surfaces reduce glare and smudges. The frameless, scratch-resistant design maintains the laptop’s clean look and is sized for 12-inch MacBook 2019 displays.

Privacy Filter Macbook Magnet2019 in short:

- Magnetic frameless privacy filter designed for 12" MacBook 2019 with 16:10 aspect ratio, fits LCD displays.
- Anti-reflective and fingerprint-resistant surface keeps your screen clearer during travel, meetings, and open-office work.
- Scratch-resistant protection preserves the display finish while staying discreet and lightweight.
- Landscape orientation limits side viewing angles to protect confidential information from passersby.
- Check that your MacBook model is the 12-inch 2019 with 16:10 screen before purchase.

Privacy Filter Macbook Magnet2019

The filter attaches and detaches easily using magnetic installation, so you can add privacy when needed and remove it without tools. It reduces reflections and hides content from side glances while leaving your direct view intact. The surface resists fingerprints and scratches, and the product meets CE and REACH compliance standards for material safety.
