Product description

Why choose this network cable?

Prokord TP-Cable UTP CAT.6 Unshielded Lszh RJ45 2m 10pcs. A pack of ten green Cat 6 cables gives a practical way to connect switches, patch panels and PoE devices with support for up to 10 000 Mbit/s. The LSZH jacket reduces toxic smoke in enclosed spaces, and the unshielded design keeps installation straightforward and cost efficient.

Product details

These Prokord cables are pre-terminated RJ-45 to RJ-45 Cat 6 patch leads designed for short to medium runs in racks and workspaces. They carry standard PoE power, so you can use them for access points, IP phones and other powered devices. The copper 26 AWG conductors deliver reliable signal transmission while the U/UTP construction is appropriate for typical office environments where full shielding is not required. The green LSZH jacket helps with cable identification and reduces hazardous emissions in case of fire.
