

Power Socket 4Xsocket 1.5m White

Data sheet

Summary

- ✓ Four Type F (CEE 7/4) AC outlets to power multiple devices at a single point.
- ✓ 1.5 m cable for flexible placement behind desks, cabinets, or small racks.
- ✓ Angled Type F plug reduces stress and saves space against walls and furniture.
- ✓ White finish blends into office and IT environments for discreet installation.
- ✓ Consider whether surge protection or a switched strip is required for your equipment.

Product description

Why choose this power socket?

Prokord Power Socket 4Xsocket 1.5m White gives you four Type F outlets in a compact, neutral design that fits office and IT environments. The 1.5 m cable and angled Type F plug make placement behind desks and equipment racks simpler, while the indoor-rated build helps you consolidate power for workstations, printers, and network devices without extra adapters.

Power Socket 4Xsocket 1.5m White in short:

- Four Type F (CEE 7/4) AC outlets to power multiple devices at a single point.
- 1.5 m cable for flexible placement behind desks, cabinets, or small racks.
- Angled Type F plug reduces stress and saves space against walls and furniture.
- White finish blends into office and IT environments for discreet installation.
- Consider whether surge protection or a switched strip is required for your equipment.

Design and build

The unit is designed for indoor use with a simple, durable housing that keeps a low profile. The white colour helps it blend into ceilings, walls, or work surfaces. The angled plug helps keep the cable close to the wall and reduces bending at the outlet.

Practical use

This power socket is suited for powering a small cluster of devices such as a desktop, monitor, printer, and network device. It is useful where you need several grounded Type F connections in one compact module.

Installation and safety

The 1.5 m cable gives you flexibility when positioning equipment near a wall outlet. Check compatibility with your local electrical standards and whether you need additional safety features such as surge protection or an on/off switch for connected equipment.

Technical Specification Matrix
