

HDMI - Displayport Adapter 3840X2160@30Hz

Data sheet

Summary

- ✓ Converts HDMI output to DisplayPort input, useful for laptops, media players, and legacy display installations.
- ✓ Supports 4K (2160p) visuals, suitable for high-resolution stills and standard video playback.
- ✓ Compact black design with DisplayPort output, easy to position in tight setups and meeting rooms.
- ✓ Supplied as a single unit, convenient for IT kits and spare-parts inventory.
- ✓ Consideration: maximum refresh rate is 30Hz, so it is not recommended for high-frame-rate gaming or motion-critical video work.

Product description

Why choose this HDMI - Displayport adapter?

Prokord HDMI - Displayport Adapter 3840X2160@30Hz helps you connect HDMI sources to DisplayPort displays with minimal setup. It outputs 2160p at a maximum of 30Hz, delivering clear 4K images for presentations, signage, and content review. The compact black unit keeps your workstation tidy and reduces the time you spend configuring display connections.

Prokord HDMI - Displayport Adapter 3840X2160@30Hz in short:

- Converts HDMI output to DisplayPort input, useful for laptops, media players, and legacy display installations.
- Supports 4K (2160p) visuals, suitable for high-resolution stills and standard video playback.
- Compact black design with DisplayPort output, easy to position in tight setups and meeting rooms.
- Supplied as a single unit, convenient for IT kits and spare-parts inventory.
- Consideration: maximum refresh rate is 30Hz, so it is not recommended for high-frame-rate gaming or motion-critical video work.

How it helps in practice

The Prokord adapter provides a straightforward signal conversion so you can reuse DisplayPort monitors without changing source devices. It works well in IT environments, conference rooms, and digital signage where image clarity is more important than high frame rates. Setup is plug-and-play, which reduces installation time and helps you keep displays working reliably.
