

USB-C 4-In-1 VGA/DVI/HDMI/DP 4K Adapter

Data sheet

Summary

- ✓ Connect USB-C devices to VGA, DVI, HDMI, or DisplayPort displays, useful for meetings, classrooms, and mixed IT environments.
- ✓ Supports up to 3840 x 2160 pixels for high-resolution output. Be aware that HDMI 1.4 may limit refresh rate at 4K.
- ✓ Compact, single-cable design keeps your bag and desk clutter free.
- ✓ White colour matches light office setups.
- ✓ Sold as one piece per pack, and check that your device supports video output over USB-C before purchase.

Product description

Why choose this USB-C 4-in-1 adapter?

Prokord USB-C 4-In-1 VGA/DVI/HDMI/DP 4K Adapter lets you connect a single USB-C laptop or tablet to a range of monitors and projectors, reducing the need for multiple dongles. It delivers up to 3840 x 2160 resolution for detailed displays, fits clean desktop setups with a white finish, and is sold as a single unit for straightforward deployment.

USB-C 4-In-1 VGA/DVI/HDMI/DP 4K Adapter in short:

- Connect USB-C devices to VGA, DVI, HDMI, or DisplayPort displays, useful for meetings, classrooms, and mixed IT environments.
- Supports up to 3840 x 2160 pixels for high-resolution output. Be aware that HDMI 1.4 may limit refresh rate at 4K.
- Compact, single-cable design keeps your bag and desk clutter free.
- White colour matches light office setups.
- Sold as one piece per pack, and check that your device supports video output over USB-C before purchase.

Product details

The Prokord USB-C 4-In-1 VGA/DVI/HDMI/DP 4K Adapter provides straightforward connectivity for legacy and modern screens. Use it to mirror or extend displays for presentations, secondary screens, or temporary workstations. The adapter’s 4K capability makes it suitable when higher resolution matters, while the range of ports keeps older VGA and DVI displays usable alongside HDMI and DisplayPort monitors.
