Product description

Why choose this ink cartridge?

Gilford Ink Magenta Pfi-107m - 6707B001 delivers dependable magenta prints for everyday business use. It provides consistent colour output and a predictable yield of up to 130 pages per pack. The single-pack format simplifies inventory and replacement, and the cartridge is compatible with Canon imagePROGRAF iPF670/680/685/770/780/785 series, making it a practical choice for routine office printing.

Ink Magenta Pfi-107m - 6707B001 in short:

- Consistent magenta output suited to routine documents and in-house communication.
- Yield of up to 130 pages per pack helps keep interruptions low for small teams.
- Single-pack supply, one cartridge per pack simplifies inventory and ordering.
- Compatible with Canon imagePROGRAF iPF670, 680, 685, 770, 780 and 785 models.
- Best fit for moderate print volumes, ideal for small offices and workgroups.

Product details

Gilford Ink Magenta Pfi-107m - 6707B001 is a single-pack magenta cartridge designed to fit specified Canon imagePROGRAF printers. Installation is straightforward and the cartridge provides reliable colour for everyday text and graphic jobs. Its 130-page yield supports steady workflows with fewer replacements, helping you manage supplies and keep printers available for daily tasks.
