

Prokord PB-DVI24+1 1M

Data sheet

Core Specs

Cable length	1 m
Connector 1	DVI-D
Connector 2	DVI-D
Product colour	Black

Summary

- ✓ Dual link DVI-D 24+1 preserves higher-resolution digital video
- ✓ Gold plated contacts and tinned copper conductors reduce signal loss
- ✓ Molded straight connectors with thumb screws secure tool-free connections
- ✓ 1 m length keeps setups tidy, ideal for racks and workstations
- ✓ LSZH jacket and braided foil shielding improve safety and EMI resistance

Product description

Why choose this DVI cable?

Prokord BLACK EDITION DVI cable combines dual link DVI-D performance with a compact 1 m length to deliver reliable digital video for short runs. Gold plated contacts and tinned-copper conductors help maintain signal integrity. Molded straight connectors with thumb screws provide secure, tool-free fastening, and the low-smoke zero-halogen jacket improves safety in enclosed spaces.

BLACK EDITION in short:

- Dual link DVI-D (24+1) for higher-resolution digital displays and smoother image transmission.
- Gold plated contacts and tinned-copper conductors reduce signal loss and support consistent performance.
- Molded straight male connectors with thumb screws secure connections quickly without tools.
- Low-smoke zero-halogen jacket and a compact 7.3 mm diameter keep installations tidy and safer in racks and meeting rooms.
- Consideration: the 1 m length is ideal for close device placement but may be too short for longer cable runs.

About the cable

The Prokord BLACK EDITION cable provides a straightforward, dependable link between DVI-equipped sources and displays. It suits control rooms, meeting rooms, desktop setups, and AV racks where a short, neat connection is preferred. The cable ships as a single unit and focuses on secure physical fastening and stable digital transmission for short-range installations.

Technical Specification Matrix
