

Locker 3 Digit

Data sheet

Summary

- ✓ Metal-bodied combination and key padlock, suited to lockers and small storage cabinets.
- ✓ Three-digit dials provide quick, keyless access while master-key capability lets authorised personnel maintain central control.
- ✓ Conventional padlock shape fits standard hasps and equipment loops.
- ✓ Silver finish blends with office and IT equipment and reduces visible wear.
- ✓ Consideration: master-keyed design means authorised personnel can open the lock, confirm if you need single-user-only locks.

Product description

Why choose this padlock?

Locker 3 Digit Cirafon is a three-digit combination and key padlock that gives flexible access control for shared storage. Its metal body and silver finish resist wear and reduce replacement needs. The dual locking method provides keyless access via the dials and a master-key override for administrative control, making it practical for lockers, storage cabinets and equipment cases.

Locker 3 Digit Cirafon in short:

- Metal-bodied combination and key padlock, suited to lockers and small storage cabinets.
- Three-digit dials provide quick, keyless access while master-key capability lets authorised personnel maintain central control.
- Conventional padlock shape fits standard hasps and equipment loops.
- Silver finish blends with office and IT equipment and reduces visible wear.
- Consideration: master-keyed design means authorised personnel can open the lock, confirm if you need single-user-only locks.

Product details

The lock pairs three-digit combination dials with a keyed override so users can open it without a key and authorised staff can access it with a master key. The sturdy metal body handles daily use and fits standard hardware, so it works well on lockers, small cabinets and equipment cases. It is supplied as a single unit for easy replacement or small deployments.
