

Travelport HDMI+VGA+DVI

Data sheet

Summary

- ✓ USB-C input with HDMI, VGA and DVI outputs, for connecting laptops and media players to projectors and screens.
- ✓ Silver metal housing provides a durable, professional look suited to conference rooms and AV racks.
- ✓ Supplied as a single unit, easy to stock and deploy. HS code 84733080 for import and logistics.
- ✓ Useful for IT system integrators, venue managers, technical support teams and event coordinators.
- ✓ Consider that it may not support the highest specialist resolution standards and is not optimised for ultra-portable mobile use.

Product description

Why choose this adapter?

Prokord Travelport HDMI+VGA+DVI is a compact USB-C multiport adapter that provides HDMI, VGA and DVI outputs in a single silver housing. It reduces the need for separate adapters, speeds installations in meeting rooms and event venues, and fits standard AV and IT environments for reliable daily use.

Prokord Travelport HDMI+VGA+DVI in short:

- USB-C input with HDMI, VGA and DVI outputs, for connecting laptops and media players to projectors and screens.
- Silver metal housing provides a durable, professional look suited to conference rooms and AV racks.
- Supplied as a single unit, easy to stock and deploy. HS code 84733080 for import and logistics.
- Useful for IT system integrators, venue managers, technical support teams and event coordinators.
- Consider that it may not support the highest specialist resolution standards and is not optimised for ultra-portable mobile use.

Main functions

This adapter lets you connect modern and legacy displays from a single USB-C port, so you can manage mixed AV setups without swapping cables. The HDMI port carries audio when the host device provides it, while VGA and DVI offer reliable connections for older projectors and monitors. A short, integrated USB-C lead and a compact silver metal housing make it easy to deploy across meeting rooms, event setups and fixed AV installations.
