

Compact Mouse Pad 26x22 cm – For Office Computers

Data sheet

Summary

- ✓ Compact 260 x 220 mm footprint, suitable for tight desks and laptop setups.
- ✓ Monochromatic black textile surface for consistent tracking during office tasks.
- ✓ 2 mm thickness for a low-profile feel that stays close to the desk.
- ✓ Rubber backing ensures the pad stays firmly in place on smooth surfaces.
- ✓ Consideration: the compact surface may limit wide mouse movements, so check fit for larger work areas.

Product description

Why choose this mouse pad?

Voxicon Compact Mouse Pad 26x22 cm – For Office Computers provides a practical, low-profile surface that keeps daily work smooth and consistent. The black textile top supports reliable tracking for optical and laser mice, while the rubber non-slip base prevents unwanted movement. Its compact size helps save desk space without adding bulk.

Compact Mouse Pad 26x22 cm – For Office Computers in short:

- Compact 260 x 220 mm footprint, suitable for tight desks and laptop setups.
- Monochromatic black textile surface for consistent tracking during office tasks.
- 2 mm thickness for a low-profile feel that stays close to the desk.
- Rubber backing ensures the pad stays firmly in place on smooth surfaces.
- Consideration: the compact surface may limit wide mouse movements, so check fit for larger work areas.

Product details

The Voxicon mouse pad pairs a smooth textile upper layer with a grippy rubber base to deliver steady, accurate pointer control for everyday office use. Its simple black finish integrates with most workstations and resists visual distraction. The slim 2 mm design keeps wrist height minimal and tucks easily into drawers or laptop bags when you need to move between workspaces.
