- ✓ Precise cutouts and tactile button covers ensure full access to buttons, ports and camera on iPhone 12 and iPhone 12 Pro.
- ✓ Slim profile keeps the device pocket-friendly while providing everyday protection.

Product description

Why choose this cover?

Cirafon Spectrum Solid Drop Safe is a robust cover designed to protect your iPhone 12 and iPhone 12 Pro from everyday drops and impacts. The TPU construction absorbs shocks while keeping the case slim and flexible. It provides a secure grip and preserves easy access to buttons, ports and the camera, without adding unnecessary bulk.

Spectrum Solid Drop Safe in short:

- Drop-tested protection rated to 2 meters, reducing impact forces from accidental falls.
- Made from thermoplastic polyurethane (TPU) for a slim, flexible fit and comfortable grip.
- Precise cutouts and tactile button covers ensure full access to buttons, ports and camera on iPhone 12 and iPhone 12 Pro.
- Slim profile keeps the device pocket-friendly while providing everyday protection.

Cirafon Spectrum Solid Drop Safe

This cover pairs a shock-absorbing TPU shell with a tailored fit for iPhone 12 and iPhone 12 Pro. It cushions impacts and helps maintain control when holding the phone. The design keeps buttons and ports accessible and preserves the phone's slim silhouette, making it practical for daily use without unnecessary bulk.
