Product description

Shipping labels STE Thermo 102x192mm 1000pcs 6-pack

Optimize your shipping process with Gilford STE Thermo 102x192mm shipping labels. These high-quality thermal labels are perfectly suited for both businesses and individuals who need reliable and efficient solutions for labeling packages. With a pack of 1000 labels, divided into convenient 6-packs, you'll always have enough labels to handle large volumes of shipments.

High-quality labels for easy labeling

Gilford STE Thermal Shipping Labels are designed to provide crisp and legible printing, making them ideal for all types of shipping and logistics needs. The thermal technology ensures smear-free prints and long-lasting durability, ensuring your packages are always presented professionally and accurately.

Compatibility with thermal printers

These labels are fully compatible with most thermal printers and are suitable for both standard direct thermal and thermal transfer printers. You can easily integrate them into your existing shipping or logistics process, saving time and increasing efficiency.

Flexible and practical format

Measuring 102x192 mm, labels are suitable for a range of package sizes, from small to medium-sized shipments. The convenient fanfold format makes storage and use easy, while labels can be retrieved quickly and easily when needed.

Durable and reliable use

Gilford STE Thermo labels have a self-adhesive backing that ensures they stick firmly to most packaging materials, from cartons to plastic bags. This means you can be sure the label will stay in place throughout transportation and won't lose its readability or adhesion during travel.

Ideal for high-volume businesses

With 1000 labels per pack and 6-packs for easy storage and organization, these labels are the perfect solution for businesses handling high volumes of shipments. Reduce downtime and ensure you always have enough labels in stock to keep your workflow efficient and smooth.

Gilford STE Thermo 102x192mm shipping labels are the reliable solution for professional and private users who need fast and efficient labeling for their packages.
