

Ergonomic

Data sheet

Summary

- ✓ Integrated cushioned wrist rest to support comfortable mousing during long sessions.
- ✓ Non-slip base ensures stable placement on smooth and textured surfaces.
- ✓ Monochromatic surface in black with a blue logo for consistent tracking with optical and laser mice.
- ✓ 230 mm by 250 mm footprint fits most desks and laptop setups, with a 3 mm low profile for a minimal feel.
- ✓ Purchase note: the 3 mm thickness gives a low-profile design, which is less elevated than thicker wrist supports.

Product description

Why choose this mouse pad?

Voxicon Ergonomic is a compact ergonomic mouse pad with an integrated wrist rest that helps reduce wrist strain during extended use. Its non-slip base keeps the pad steady on your desk, and the monochromatic surface supports accurate mouse tracking while maintaining a professional appearance.

Ergonomic in short:

- Integrated cushioned wrist rest to support comfortable mousing during long sessions.
- Non-slip base ensures stable placement on smooth and textured surfaces.
- Monochromatic surface in black with a blue logo for consistent tracking with optical and laser mice.
- 230 mm by 250 mm footprint fits most desks and laptop setups, with a 3 mm low profile for a minimal feel.
- Purchase note: the 3 mm thickness gives a low-profile design, which is less elevated than thicker wrist supports.

Product details

This mouse pad provides a stable, comfortable mousing surface with a built-in wrist rest that reduces pressure on the wrist. The smooth top layer balances glide and control for everyday office tasks and precise pointer work. Its compact dimensions make it easy to place alongside keyboards or on crowded desks, while the black and blue styling fits common IT and office environments.
