

Cable Marker All Colors

Data sheet

Summary

- ✓ Colour-coded markers speed up tracing and identification in racks, patch panels, and cable trays.
- ✓ Reduces errors and maintenance time when you need to reconfigure or troubleshoot connections.
- ✓ Multicolour set supports consistent labelling schemes across rooms and installations.
- ✓ Durable design suited to routine office and data centre environments.
- ✓ Consideration: not intended for cables exposed to extreme outdoor weather or very high-temperature industrial settings.

Product description

Why choose this cable marker?

Prokord Cable Marker All Colors helps you organise and identify cables quickly with a multicolour scheme that reduces downtime during maintenance. It improves clarity in dense cable bundles and supports consistent labelling practices. The marker is durable for routine office and data centre use and makes ongoing cable management faster and less error-prone.

Prokord Cable Marker All Colors in short:

- Colour-coded markers speed up tracing and identification in racks, patch panels, and cable trays.
- Reduces errors and maintenance time when you need to reconfigure or troubleshoot connections.
- Multicolour set supports consistent labelling schemes across rooms and installations.
- Durable design suited to routine office and data centre environments.
- Consideration: not intended for cables exposed to extreme outdoor weather or very high-temperature industrial settings.

Prokord Cable Marker All Colors

Prokord Cable Marker All Colors provides a straightforward way to label individual cables so you can assign colours to functions, locations, or services and trace connections faster during audits or repairs. The markers stand out in dense bundles to keep installations tidy and help technicians avoid accidental disconnections. You can apply them quickly during installation or as part of routine labelling updates.
