Product description

Why choose this mouse?

Voxicon Wireless Optical Mouse M360wl gives you reliable multi-device control with simple setup and long battery life. It delivers precise cursor control, silent clicks, and ergonomic right-hand support for comfortable, low-noise work in shared or mobile offices.

Voxicon Wireless Optical Mouse M360wl in short:

- Precise 2400 dpi optical sensor with three resolution modes for both detailed work and fast navigation.
- Bluetooth Low Energy and 2.4 GHz connectivity with a mini receiver that fits USB-A and Type-C, for flexible plug-and-play use.
- Six practical buttons, including Back/Forward and a dedicated DPI switch, plus a smooth vertical scroll wheel.
- Right-hand ergonomic shape and lightweight design to reduce fatigue during long sessions.
- Uses one AA alkaline battery, included, for up to four months of typical use.

Ergonomic comfort and controls

The M360wl places ergonomics at the center of its design to help your hand stay comfortable during extended use. The right-hand form factor and contoured ABS shell support your thumb and palm, while silent pressed buttons and a textured scroll wheel keep noise and distraction to a minimum. Clearly marked function keys let you change sensitivity and navigate back or forward without opening settings.

Connectivity and performance

You can pair the mouse via Bluetooth Low Energy or use the supplied mini receiver for a 2.4 GHz connection, giving you up to 10 m of reliable range. Multi-device support makes switching between laptop, tablet, and desktop straightforward. The sensor’s adjustable resolution and a 4 ms response time ensure smooth cursor movement for spreadsheets, documents, and general office workflows.

Power and portability

Powered by a single AA alkaline battery, the mouse balances long run time with easy replacement. The included receiver stores neatly when not in use, and the compact, 55 g build makes the mouse easy to carry for business travel. Durable button construction and plug-and-play setup mean you spend less time on maintenance and more time on work.
