- ✓ Slim, matte black profile that protects without adding noticeable bulk.
- ✓ Precise cutouts and tactile button covers, compatible with iPhone 12 and iPhone 12 Pro.
- ✓ Easy to fit and remove for quick installation.

Product description

Why choose this cover?

Cirafon Spectrum Solid Drop Safe combines drop-resistant protection with a slim, understated black cover that preserves your phone’s profile. The thermoplastic polyurethane construction absorbs shocks while remaining flexible for easy fitting. It provides practical defence against everyday drops without adding bulk, and precise cutouts keep buttons, ports and the camera fully accessible.

Cirafon Spectrum Solid Drop Safe in short:

- Thermoplastic polyurethane (TPU) shell for flexible impact absorption.
- Drop-resistant to 2 meters for everyday protection.
- Slim, matte black profile that protects without adding noticeable bulk.
- Precise cutouts and tactile button covers, compatible with iPhone 12 and iPhone 12 Pro.
- Easy to fit and remove for quick installation.

Product details

Cirafon Spectrum Solid Drop Safe uses TPU construction to resist scuffs and disperse impact energy while maintaining a low-profile fit. A raised rim helps protect the screen and camera when the phone is placed face down. The cover snaps on securely and preserves access to all ports, buttons and the camera, making it a practical option for daily use with iPhone 12 and iPhone 12 Pro.
