Product description

Why choose this mouse?

Voxicon Wired Mouse Gr650 delivers precise tracking, adaptable sensitivity, and ergonomic support for extended office use. It speeds up navigation with six DPI settings up to 6400 dpi and a horizontal scroll function, while the right-hand form and sculpted thumb rest improve comfort during long sessions. The braided 1.8 m USB-A cable and multi-colour illumination provide durable connectivity and clear visual feedback.

Wired Mouse Gr650 in short:

- Six adjustable DPI modes up to 6400 dpi, useful for detailed editing and fast navigation.
- Right-handed ergonomic shape with a sculpted thumb rest and textured side grip for reduced wrist strain.
- Seven responsive buttons and a scroll wheel with horizontal scrolling for faster document and spreadsheet navigation.
- Braided 1.8 m USB-A cable, optical sensor with red laser, and surface-agnostic tracking for reliable plug-and-play use.
- Consideration: the wired USB-A connection and right-hand form are practical for many setups but may not match left-handed or wireless-required workflows.

Design and comfort

The Voxicon Wired Mouse Gr650 is shaped for right-hand use with an ergonomic profile and a built-in thumb rest that supports a relaxed grip. Textured side surfaces help maintain control during long tasks, and multi-colour illumination highlights key areas for working in dim environments. The overall design focuses on comfort to reduce fatigue during prolonged use.

Precision and control

This mouse lets you switch sensitivity quickly with a dedicated DPI control and choose from six resolution modes to match precision or speed needs. An optical sensor enhanced by a red laser provides accurate tracking across common desk surfaces, so you can skip a separate mouse pad. The wheel supports horizontal scrolling and the seven buttons give immediate access to navigation and shortcut actions.

Durability and daily use

A braided 1.8 m cable resists tangling and holds up to daily handling, while the wired connection ensures consistent, low-latency performance without batteries or charging. The product comes with a two-year warranty, making it a practical choice for users who need a dependable, ergonomic mouse for sustained office workflows.
