- Designed to fit the W411-3 mop module precisely, including the top notch for secure attachment.
- Microfiber surface captures dirt and moisture for streak-free results on hard floors.
- Machine washable and reusable to reduce replacement frequency and running costs.
- Quick swap keeps your robot operating at intended cleaning performance.
- Consider replacing regularly depending on use intensity and cleaning agents to maintain effectiveness.

Product details

The Prokord Smart Home Sparepart Mop Cloth For W411-3 is a shaped, reusable cleaning pad made to match the mop head on the W411-3. You attach it to the mop bracket for routine wet or damp cleaning, then remove it for laundering. The cloth helps maintain hygiene and consistent floor care without complex maintenance.
