- ✓ Ideal for regular maintenance cycles in homes or small office environments.
- ✓ Check compatibility with your device model W411-3 before purchase to ensure proper fit.

Product description

Why choose this HEPA filter?

Smart Home Sparepart Hepa Filer For W411-3 Prokord helps restore filtration performance and maintain indoor air quality in your W411-3 unit. It reduces airborne dust, pollen and pet dander, which lowers cleaning and maintenance needs and keeps the device running efficiently. The simple, replaceable design keeps downtime and service effort to a minimum.

Smart Home Sparepart Hepa Filer For W411-3 in short:

- Replacement HEPA element designed for the W411-3 smart home unit, keeping particle removal effective.
- Pleated, rectangular design with a removal tab for straightforward installation and disposal.
- Helps reduce dust buildup and prolong the operational life of the air-handling system.
- Ideal for regular maintenance cycles in homes or small office environments.
- Check compatibility with your device model W411-3 before purchase to ensure proper fit.

How it helps

Smart Home Sparepart Hepa Filer For W411-3 is a service part meant to be swapped during routine maintenance. The pleated media captures fine particles so the system maintains airflow and filtration efficiency. The visible pull tab and compact shape make replacement quick, so you can return the unit to normal operation with minimal interruption.
