Product description

Why choose this power adapter?

Smart Home Sparepart Power Adapter For W411-3 Prokord gives you a straightforward, cost-effective way to restore power to a W411-3 smart home unit. It offers dependable operation and simple installation, helping you reduce downtime and keep devices running without complex setup or additional tools.

Smart Home Sparepart Power Adapter For W411-3 in short:

- Replacement power adapter designed for the W411-3 smart home unit, so you can return a device to service quickly.
- Compact wall-mounted design with two-pin European plug, suitable for tight outlets and standard installations.
- Right-angle barrel connector and fixed cable for tidy routing behind equipment and in cabinets.
- Labelled with common safety and certification icons to help with compliance checks.
- Check that the EU plug type and barrel connector match your installation before purchase.

Smart Home Sparepart Power Adapter For W411-3

This Prokord power adapter supplies stable mains power to the W411-3 as a direct spare part. You can swap it in place of a faulty or lost adapter to restore normal operation with minimal effort. The compact housing and right-angle connector make it easy to fit in constrained locations, and the visible safety markings simplify verification during maintenance.
