Product description

Why choose this monitor arm?

Prokord Wall Mount LCD/LED Arm offers flexible screen positioning and frees desk space. It supports 17" to 34" screens up to 9kg and fits VESA 75 x 75 and 100 x 100. Tilt from -90 to 45° and rotation let you switch between portrait and landscape. Built-in cable management keeps installations tidy.

WALL MOUNT LCD/LED ARM in short:

- Supports one display, compatible with VESA 75 x 75 and 100 x 100 for easy mounting.
- Holds screens from 17" to 34" and up to 9kg, suitable for workstations, reception areas, and retail displays.
- Tilt range -90 to 45° and rotation enable ergonomic adjustments and portrait or landscape use.
- Integrated cable management keeps cables organised and out of sight.
- Wall-mounted with screws, check wall type and use appropriate anchors for a secure installation.

Product details

The Prokord Wall Mount LCD/LED Arm fixes to a wall and gives a single monitor a wide range of motion through its articulated arm. You can tilt and swivel the screen for better viewing angles and rotate it for portrait setups. The arm is built from steel and aluminium with plastic covers to balance stability and a neat appearance. It is supplied as a single unit, and you should confirm your wall and fixings are suitable for the load before fitting.
