

4xsocket 5m White 2xusb + Powerstrip Holder #kit

Data sheet

Summary

- ✓ Four Type F AC outlets to power monitors, printers, NAS units, and other desk equipment.
- ✓ Two front USB ports with a combined 5 V, 2.1 A output for charging phones and tablets.
- ✓ 5 m cable for flexible placement and fewer additional extension cords.
- ✓ Front-mounted red rocker switch and included desk clamp for clear control and secure mounting.
- ✓ Designed for indoor use only; confirm the cable length and clamp suit your layout.

Product description

Why choose this power extension?

Prokord KF-GSB-04KU-5-W/MH01-2 power extension 5 m 4 AC outlet(s) Indoor White gives you organised, accessible power for indoor workspaces. It combines four grounded Type F outlets and two USB ports with a clear red on/off switch and a desk clamp, so you can keep devices off the floor and reduce the need for extra extension cords.

Prokord KF-GSB-04KU-5-W/MH01-2 power extension 5 m 4 AC outlet(s) Indoor White in short:

- Four Type F AC outlets to power monitors, printers, NAS units, and other desk equipment.
- Two front USB ports with a combined 5 V, 2.1 A output for charging phones and tablets.
- 5 m cable for flexible placement and fewer additional extension cords.
- Front-mounted red rocker switch and included desk clamp for clear control and secure mounting.
- Designed for indoor use only; confirm the cable length and clamp suit your layout.

Main functions

The strip brings mains power and USB charging into a single compact unit. You can plug multiple earthed devices into the Type F outlets while using the USB ports for mobile devices, reducing the number of wall adapters on your desk. The USB output of 5 V and 2.1 A is suitable for typical phones and tablets and keeps chargers consolidated.

Placement and control

The included desk clamp secures the unit to a desk or workbench edge, keeping outlets within easy reach and off the floor. The long 5 m cable lets you position the strip where it best serves your workspace. The bright red rocker switch controls power to all connected devices at once and is easy to operate.

Safety and suitability

Type F outlets provide grounded connections commonly required by office and network devices. This product is intended for indoor use only. Check that the 5 m cable and clamp fit your installation and verify the combined power draw of connected equipment stays within safe limits before use.
