

USB VX210 Stereo USB-A Black

Data sheet

Summary

- ✓ Wired USB-A connection for straightforward plug-and-play with standard workstations.
- ✓ Noise-canceling boom microphone for clearer speech on calls and virtual meetings.
- ✓ Supraaural ear cups and a padded head-band for extended comfort during long shifts.
- ✓ Good for contact centre use, remote meetings, and online training sessions.
- ✓ Note that the USB-A plug requires a compatible port or an adapter for USB-C devices.

Product description

Why choose this headset?

Voxicon USB VX210 is a wired stereo headset that gives reliable audio and clear voice capture for everyday office tasks. It connects via USB-A for simple plug-and-play use with desktop PCs and some laptops. The noise-canceling boom microphone reduces background distractions, while the head-band design and soft supraaural ear cushions keep wear comfortable during long calls.

USB VX210 in short:

- Wired USB-A connection for straightforward plug-and-play with standard workstations.
- Noise-canceling boom microphone for clearer speech on calls and virtual meetings.
- Supraaural ear cups and a padded head-band for extended comfort during long shifts.
- Good for contact centre use, remote meetings, and online training sessions.
- Note that the USB-A plug requires a compatible port or an adapter for USB-C devices.

Sound and voice quality

USB VX210 delivers clear, balanced audio for voice and media playback, driven by its full-range drivers. The boom microphone uses noise-canceling technology to reduce background noise, so your voice comes through with less interference during calls. This makes the headset suitable for focused communications in busy office environments.

Comfort and build

The headset uses a head-band with cushioned supraaural ear pads to sit comfortably over the ears. The on-ear design keeps the unit compact and lightweight, which helps reduce fatigue during prolonged use. The black finish is practical and fits into most professional setups.

Connectivity and compliance

USB-A connectivity provides a dependable wired link that avoids pairing steps and wireless interference. The product meets RoHS and REACH requirements, which supports regulatory compliance in corporate procurement. The simple design and standard connector make the headset easy to deploy across workstations.

Technical Specification Matrix

Header

Manufacturer	Voxicon
--------------	---------

Performance

Product type	Headset
--------------	---------

Wearing style	Head-band
Headset type	Stereo
Product colour	Black

Ports & interfaces

Connectivity technology	Wired
USB connectivity	Yes
USB connector	USB-A
Bluetooth	No

Headphones

Ear coupling	Supraaural
Headphone frequency	20 - 20000 Hz
Impedance	32 Ohm
Headphone sensitivity	105 dB
Diaphragm diameter	40 mm

Microphone

Microphone type	Boom
Microphone frequency	100 - 8000 Hz
Microphone noise-canceling	Yes

Weight & dimensions

Width	15.5 mm
Depth	7.4 mm
Height	17.7 mm
Weight	156 g

Sustainability

Sustainability certificates	REACH, RoHS
Sustainability compliance	Yes
