

USB Teams VX610 ANCStereo USB-A Black

Data sheet

Summary

- ✓ Wired USB-A connection for stable audio and easy plug-and-play with many desktops and docking stations.
- ✓ Foldable boom with noise-canceling microphone and dedicated mute for clear, private conversations.
- ✓ In-line control unit with buttons and volume control for fast call handling at your workspace.
- ✓ Supraaural ear cushions and adjustable headband for comfort during extended use, suitable for office and call center environments.
- ✓ Consideration: USB-A connector may require a USB-C adapter for some modern laptops.

Product description

Why choose this headset?

Voxicon USB Teams VX610 ANC provides reliable wired connectivity and comfort for long shifts, helping you handle frequent calls with consistent audio quality. The foldable boom and noise-canceling microphone reduce background noise for clearer conversations. In-line controls and a 1.8m cable make desk and hot-desk setups straightforward, so you can work efficiently and reduce call repetition.

USB Teams VX610 ANC in short:

- Wired USB-A connection for stable audio and easy plug-and-play with many desktops and docking stations.
- Foldable boom with noise-canceling microphone and dedicated mute for clear, private conversations.
- In-line control unit with buttons and volume control for fast call handling at your workspace.
- Supraaural ear cushions and adjustable headband for comfort during extended use, suitable for office and call center environments.
- Consideration: USB-A connector may require a USB-C adapter for some modern laptops.

Comfortable all-day wear

The headset uses a head-band design and supraaural ear cups that sit on the ear to balance isolation and comfort. Padding around the ear and an adjustable band help maintain a stable fit through long shifts, so you can stay focused without frequent adjustments.

Clear communication and simple controls

The boom microphone offers noise-canceling performance and folds away when not in use. You get a dedicated mute function and button-based volume control on the in-line unit, which keeps call handling intuitive and reduces interruptions during meetings.

Deployment and compliance

The USB-A connection and 1.8m cable suit typical workstation layouts and standard office setups. The product meets REACH and RoHS sustainability standards, supporting corporate procurement requirements for regulatory compliance.

Technical Specification Matrix

Header

Manufacturer	Voxicon
--------------	---------

Performance

Product type	Headset
--------------	---------

Wearing style	Head-band
Recommended usage	Office, Call center
Headset type	Stereo
Product colour	Black
Control type	Buttons
