

W410 Black 30WBlack

Data sheet

Summary

- ✓ 30W 2.1 portable speaker system for music listening at home, in small gatherings, or on the go.
- ✓ Bluetooth and wired AUX/3.5 mm inputs let you connect phones, laptops, and legacy players.
- ✓ Integrated card reader enables direct playback from memory cards without a separate source.
- ✓ USB Type-C charging, requires 5–12W, makes recharging simple from common adapters or power banks.
- ✓ Note there is no Wi-Fi or built-in microphone, so it does not support voice assistants or hands-free calling.

Product description

Why choose this 2.1 portable speaker system?

Voxicon W410 Black 30W delivers portable, room-filling audio with a 2.1 configuration that balances clear mids and highs with pronounced bass. It is designed for easy everyday use, with wired and wireless playback options, on-device controls, and USB Type-C charging for straightforward power management.

W410 Black 30W in short:

- 30W 2.1 portable speaker system for music listening at home, in small gatherings, or on the go.
- Bluetooth and wired AUX/3.5 mm inputs let you connect phones, laptops, and legacy players.
- Integrated card reader enables direct playback from memory cards without a separate source.
- USB Type-C charging, requires 5–12W, makes recharging simple from common adapters or power banks.
- Note there is no Wi-Fi or built-in microphone, so it does not support voice assistants or hands-free calling.

Sound and usability

The W410 is built to make music listening straightforward. The 2.1 layout provides a clear midrange and treble while a dedicated low channel adds depth to bass-heavy tracks. Onboard controls let you adjust volume and playback without reaching for a phone, which keeps listening convenient in different environments.

Connectivity and power

You can stream wirelessly over Bluetooth or connect via wired AUX and 3.5 mm inputs for reliable playback from a wide range of sources. The integrated card reader offers an alternative for direct file playback. Charging uses a USB Type-C port and accepts 5 to 12 watts, so you can recharge from common adapters or portable power banks.

Design and use cases

The speaker's black finish and carry strap make it practical for moving between rooms, outdoor patios, and short trips. It suits music listening in living rooms, small parties, or workspaces where clear audio and portable operation are priorities. Keep in mind the unit does not include Wi-Fi or a microphone, so it is focused on audio playback rather than smart features or call handling.
