Product description

Why choose this cable lock?

Prokord PL3000-4 cable lock Black 1.8 m secures laptops, monitors and docking stations using a keyed Kensington-style anchor. Its 1.8 m steel cable with protective coating lets you route and secure equipment easily while providing visible deterrence. The key lock is simple to operate and comes with two keys, making daily use straightforward and reducing the risk of casual theft.

PL3000-4 cable lock Black 1.8 m in short:

- Fits devices with a standard Kensington security slot, suitable for PCs, monitors and docking stations.
- 1.8 m steel cable with black protective coating for flexible routing and visible deterrence.
- Key lock design, delivered with two keys for convenient access management.
- 4 mm cable diameter balances flexibility and resistance for everyday use.
- Note: check that your device has a compatible security slot before purchase.

Product details

The Prokord PL3000-4 cable lock installs quickly by inserting the lock head into a Kensington-style slot and looping the cable around a fixed anchor point. The lock body uses metal and plastic components for durability while keeping the mechanism easy to operate. One lock is supplied per pack with two keys included, so you can secure a single device without additional tools.
