Product description

Why choose this laptop dock/port replicator?

Prokord PD-DOCKM08 laptop dock/port replicator expands your USB-C laptop with a compact hub that combines power delivery, wired networking and multiple display options. It helps you reduce cable clutter by charging your laptop while connecting monitors, ethernet and memory cards, so you can work from a desk or meeting room with fewer adapters and interruptions.

PD-DOCKM08 in short:

- Single USB-C connection with USB Power Delivery up to 100W, so you can charge your laptop while using peripherals.
- HDMI 2.0 and VGA outputs provide compatibility with modern and legacy displays for presentations and dual-screen setups.
- Gigabit Ethernet (RJ-45) and SD/microSD card slots give reliable wired network access and direct media import.
- Two USB 3.2 Gen 1 Type-A ports and one USB 3.2 Gen 1 Type-C port for external drives, mice and keyboards.
- Consideration: make sure your laptop's USB-C port supports video output if you plan to drive external displays.

Prokord PD-DOCKM08 overview

The PD-DOCKM08 turns a single USB-C port into a versatile docking station suited for everyday workstation use. Use HDMI 2.0 for high-definition screens and VGA for older projectors, while gigabit Ethernet keeps large file transfers and video calls stable. The built-in SD and microSD readers simplify photo and video workflows. Compact and lightweight, the dock fits easily in a bag and includes a two year warranty for business deployments.
