Product description

Why choose this cover?

Cirafon Nano Clear Duo Drop Safe is a transparent TPU cover that protects your iPhone 13 Pro while preserving its original appearance. It pairs a slim, flexible construction with engineered shock resistance to reduce damage from everyday drops, while keeping the phone easy to handle and use.

Nano Clear Duo Drop Safe in short:

- Clear TPU construction that maintains the visible design of the iPhone 13 Pro.
- Drop protection rated up to 1 meter, with reinforced corners for impact absorption.
- Slim, lightweight profile that keeps the phone pocket-friendly.
- Precise cutouts and tactile button coverage for unobstructed access to controls and the camera.
- Easy to fit and remove without adding bulk.

Product details

The Cirafon Nano Clear Duo Drop Safe uses thermoplastic polyurethane to deliver a balance of flexibility and durability for daily use with the iPhone 13 Pro. The transparent finish lets the device’s design show through while the reinforced edges and raised camera lip help protect vulnerable areas. The cover fits snugly and preserves full access to ports, buttons, and the camera.
