- ✓ Slim, lightweight fit for pocketability and everyday handling.
- ✓ Textured side edges improve grip and precise cutouts maintain full access to buttons and ports.

Product description

Why choose this cover?

Cirafon Nano Clear Duo Drop Safe is a smart, transparent cover for iPhone 13 that protects without hiding the phone's design. Made from thermoplastic polyurethane, it balances flexibility and impact resistance. The duo-layer construction and reinforced camera ring provide drop protection up to 1 meter while keeping a slim, easy-to-handle profile.

Cirafon Nano Clear Duo Drop Safe in short:

- Transparent TPU cover that preserves the original look of the iPhone 13.
- Duo-layer design offers reliable drop protection up to 1 meter.
- Slim, lightweight fit for pocketability and everyday handling.
- Textured side edges improve grip and precise cutouts maintain full access to buttons and ports.

Protection and design

The Cirafon Nano Clear Duo Drop Safe combines a flexible TPU outer shell with a reinforced inner layer to absorb shocks from daily drops. Its clear finish keeps the iPhone 13 visible while resisting scratches and yellowing. The low-profile fit includes a raised camera ring to protect lenses and exact openings for seamless use of ports and controls.
