

Adapter Displayport - HDMI 0.2m White0.2m DisplayPort HDMI

Data sheet

Summary

- ✓ Converts a DisplayPort output to an HDMI input, useful for connecting laptops or desktops to HDMI monitors and projectors.
- ✓ Short 0.2 m cable keeps connections neat next to docking stations and wall-mounted displays.
- ✓ White, compact connectors blend into light-coloured setups and reduce visual clutter.
- ✓ Connector configuration: DisplayPort male to HDMI female, so an HDMI cable plugs into the adapter.
- ✓ Note to consider: the adapter is directional, so ensure your DisplayPort source supports output to HDMI.

Product description

Why choose this adapter?

Prokord Adapter Displayport - HDMI 0.2m White gives a simple way to connect a DisplayPort output to an HDMI display. It saves space and cable clutter in tight setups, and makes it easy to reuse existing HDMI cables for projectors, monitors, or TVs without changing your source device.

Adapter Displayport - HDMI 0.2m White in short:

- Converts a DisplayPort output to an HDMI input, useful for connecting laptops or desktops to HDMI monitors and projectors.
- Short 0.2 m cable keeps connections neat next to docking stations and wall-mounted displays.
- White, compact connectors blend into light-coloured setups and reduce visual clutter.
- Connector configuration: DisplayPort male to HDMI female, so an HDMI cable plugs into the adapter.
- Note to consider: the adapter is directional, so ensure your DisplayPort source supports output to HDMI.

Product details

This Prokord adapter provides a straightforward, short-range connection from a DisplayPort source to an HDMI display. The HDMI female end accepts a standard HDMI cable so you can use cables you already own. The compact form factor is suited to desks, meeting rooms, and AV cabinets where space is limited.
