

TRANZIP

Tranzip TR-275S-128

Data sheet

Core Specs

Storage Capacity	128 GB
Device interface	USB-A
Product colour	Black

Summary

- ✓ 128GB capacity stores large files and keeps backups on the go
- ✓ USB 3.2 Gen 1 interface delivers fast file transfers to PCs
- ✓ USB-A plug fits most laptops and desktops for instant use
- ✓ Slide form protects the connector, ideal for pocket portability
- ✓ RoHS and REACH compliance supports corporate sustainability goals

Product description

Why choose this datastick?

Tranzip Datastick gives you 128GB of portable storage with a sliding USB-A connector, so you can move large files, installers, or backups between workstations without a cap to lose. The USB 3.2 Gen 1 interface supports faster transfers on compatible computers, while a compact black design keeps it discreet and easy to carry.

Tranzip Datastick in short:

- 128GB capacity for large documents, media, or portable backups.
- USB-A connector with USB 3.2 Gen 1 for faster file transfers on compatible systems.
- Slide form factor protects the connector, no separate cap required.
- Compact black housing that fits laptop bags and shared toolkits.
- REACH and RoHS compliant, supplied as a single unit.

Tranzip Datastick

The Tranzip Datastick is a simple, durable USB flash drive for everyday IT tasks. With 128GB of storage and a USB-A plug, it works with standard USB ports for file transfer, system images, and software installers. The sliding mechanism protects the connector when not in use, reducing the chance of damage or lost caps. Compliance with REACH and RoHS covers basic sustainability and safety expectations, and the single-pack format makes it easy to provision for users or technicians.
