

Tranzip TR-275S-32

Data sheet

Core Specs

Storage Capacity	32 GB
Device interface	USB-A
Product colour	Black

Summary

- ✓ 32GB capacity fits documents and media for everyday business use
- ✓ USB-A plug ensures broad compatibility with desktop and laptop PCs
- ✓ USB 3.2 Gen 1 connection for faster file transfers and backups
- ✓ Slide form factor protects the connector and eliminates loose caps
- ✓ RoHS and REACH compliance supports sustainable procurement policies

Product description

Why choose this datastick?

Tranzip Datastick 32GB is a compact, slide-style USB flash drive that gives you reliable portable storage for documents, media, and backups. With USB 3.2 Gen 1 performance and a retractable connector, it speeds up transfers on compatible hosts and keeps the connector protected during transport to reduce wear and downtime.

Tranzip Datastick 32GB in short:

- 32GB capacity for moving files, photos, and small system backups.
- USB-A with USB 3.2 Gen 1 for faster file transfers on compatible ports, backward compatible with USB 2.0.
- Slide form factor protects the connector without a removable cap and stays pocket-friendly.
- Black finish, single-unit pack, and compliance with RoHS and REACH.
- Note that this model uses a USB-A plug, so a USB-C adapter may be needed for newer laptops.

Product details

This datastick plugs into a standard USB-A port and works plug-and-play with most systems, making it suitable for file exchange, ad-hoc backups, and transporting media between devices. The retractable connector removes the need for a separate cap, which lowers the risk of losing parts. It is sold as a single unit and meets common environmental compliance standards, helping you meet procurement and disposal requirements.
