

Tranzip TR-301N-32

Data sheet

Core Specs

Storage Capacity	32 GB
Device interface	USB-A
Product colour	Black

Summary

- ✓ USB 3.2 Gen 1 delivers up to 5Gbps for quick file moves
- ✓ 32GB stores documents, presentations and media on the go
- ✓ Swivel slide design protects the connector, no cap to lose
- ✓ USB-A plug ensures wide compatibility with existing PCs and hubs
- ✓ RoHS and REACH compliance supports corporate sustainability goals

Product description

Why choose this USB flash drive?

Tranzip Flip is a compact 32GB USB flash drive that delivers reliable, portable storage for everyday file transfer and backup. It uses USB 3.2 Gen 1 for faster transfers while remaining compatible with USB-A ports. The swivel metal cover protects the connector and includes a keyring loop for easy carry. It meets RoHS and REACH sustainability standards.

Flip in short:

- 32GB capacity, suitable for documents, presentations, and moderate photo or media storage.
- USB 3.2 Gen 1 offers quicker file transfers and backward compatibility with older USB-A ports.
- Slide/swivel metal cover protects the connector and provides a built-in loop for attaching to keys or lanyards.
- Compact black design that fits in a pocket or laptop bag.
- Note the connector is USB-A, so verify device port compatibility before purchase.

Design and usability

The drive is built for simple plug-and-play use. Slide the metal cover to expose the USB-A connector, plug into a compatible port, and transfer files without extra cables. The metal swivel adds protection when stored and helps prevent accidental damage to the connector. Compliance with REACH and RoHS supports responsible procurement decisions.
