

# Prokord USBC-EXT3.1-1

Data sheet

## Core Specs

|                          |                              |
|--------------------------|------------------------------|
| Cable length             | 1 m                          |
| Connector 1              | USB-C                        |
| Connector 2              | USB-C                        |
| Product colour           | Black                        |
| USB version              | USB 3.2 Gen 1<br>(3.1 Gen 1) |
| USB Power Delivery up to | 100 W                        |

## Summary

- ✓ USB 3.2 Gen 1 provides high-speed transfers up to 10Gbit/s
- ✓ Power Delivery support charges devices at 20V 5A, up to 100W
- ✓ TPE jacket and nickel-plated contacts boost durability and reliability
- ✓ 1m USB-C male to female cable suits desk setups and peripherals

# Product description

## Why choose this USB cable?

Prokord USBC-EXT3.1-1 USB cable 1 m USB 3.2 Gen 1 (3.1 Gen 1) Black is a 1 metre USB-C extension cable that extends reach for chargers, docks and peripherals while keeping fast data and reliable power delivery. It supports USB 3.2 Gen 1 speeds up to 10 Gbit/s and Power Delivery up to 100 W, with a flexible TPE jacket and nickel-plated contacts for durability.

## USBC-EXT3.1-1 USB cable 1 m USB 3.2 Gen 1 (3.1 Gen 1) Black in short:

- 1 m male-to-female USB-C extension, ideal for extending charger and dock connections without replacing cables.
- USB 3.2 Gen 1 performance with a maximum data transfer rate of 10 Gbit/s for fast file transfers and peripherals.
- Supports USB Power Delivery up to 100 W (20 V, 5 A), suitable for charging laptops and high-power devices.
- TPE jacket and nickel-plated contacts provide flexibility and corrosion resistance for everyday use.
- Check that a male-to-female extension fits your setup before purchase, especially for tight connector layouts.

## Details

Prokord USBC-EXT3.1-1 lets you extend existing USB-C connections while keeping data and power capabilities intact. The straight male and straight female connectors preserve signal and power paths, and the cable handles up to 20 V and 5 A for high-power charging. Use it to add practical reach to chargers, docking stations and desk setups without compromising transfer speeds or power delivery.
