Product description

Why choose this USB cable?

Prokord UTC-H-SL# USB cable USB C is a compact USB-C to HDMI adapter that makes it easy to connect laptops and tablets to external displays and projectors. It reduces the need for larger docking solutions and speeds up setup for meetings, presentations, and temporary workstations. The simple plug-and-play design helps keep meeting rooms and mobile setups reliable and easy to use.

UTC-H-SL# USB cable USB C in short:

- Connects a USB-C host device to an HDMI display for screen sharing, presentations, or video playback.
- Compact adapter format, suitable for travel and flexible desk setups.
- Plug-and-play operation with no additional software required for typical use.
- Durable molded housing and strain-relief for frequent plugging and unplugging.
- Check display port orientation and available HDMI cable length when planning installations.

Product details

The UTC-H-SL# USB cable USB C from Prokord features a USB-C plug that connects to your computer or tablet and provides an HDMI output for external displays. Use it to mirror or extend your desktop, show presentations, or play video on a larger screen without needing a docking station. The compact form factor fits easily in a laptop bag and helps simplify connections across meeting rooms and mobile work environments.
