

W410 Boom Black Duo#ktBlack

Data sheet

Summary

- ✓ 2.1 speaker design with stereo drivers and an integrated subwoofer for fuller bass and balanced music playback.
- ✓ Bluetooth streaming plus wired connectivity via AUX 3.5 mm for reliable source switching.
- ✓ Integrated card reader for direct playback from memory cards when you need offline options.
- ✓ USB Type-C charging compatible with 5 to 12W chargers and a padded carry strap for easy transport.
- ✓ No built-in microphone, so it is focused on music playback rather than hands-free calling.

Product description

Why choose this 2.1 portable speaker system?

Voxicon S-W410B delivers a portable 2.1 setup that adds deeper low end without sacrificing clarity in the mids and highs. It gives you flexible playback for music at home or small gatherings, with both wireless Bluetooth and wired inputs, a card reader for offline tracks, and USB-C charging for straightforward use on the go.

S-W410B in short:

- 2.1 speaker design with stereo drivers and an integrated subwoofer for fuller bass and balanced music playback.
- Bluetooth streaming plus wired connectivity via AUX 3.5 mm for reliable source switching.
- Integrated card reader for direct playback from memory cards when you need offline options.
- USB Type-C charging compatible with 5 to 12W chargers and a padded carry strap for easy transport.
- No built-in microphone, so it is focused on music playback rather than hands-free calling.

Sound and listening experience

Voxicon S-W410B focuses on music listening with a 2.1 layout that adds low-frequency support to stereo output. That combination helps tracks sound more complete at moderate volume levels, making the speaker suitable for casual listening, background music during events, and small indoor gatherings.

Connectivity and playback

You can stream wirelessly over Bluetooth or connect devices directly using the AUX 3.5 mm input. The integrated card reader lets you play files without a phone or laptop, which is useful for curated playlists at events or when you prefer offline media. There is no Wi-Fi connectivity, keeping setup and pairing simple.

Power and portability

The S-W410B charges via a USB Type-C port and accepts standard chargers from 5 to 12W, so you can use common phone chargers for power. The black finish and padded strap make it easy to move between rooms or take to a small outdoor meet-up. Keep in mind the design is optimized for music playback rather than voice calls, due to the absence of a built-in microphone.
