

USB VXI6B ANC 5-pack Stereo USB-A Black

Data sheet

Summary

- ✓ Five-unit pack suitable for small teams, hot desks, or call-center deployments.
- ✓ USB-A wired connection provides plug-and-play compatibility with standard desktops and softphone setups.
- ✓ Noise-canceling boom microphone with in-line mute, answer/end and volume controls for clear, efficient calls.
- ✓ Head-band design with supraaural pads and a 1.8 m cable for comfortable, flexible desk placement.
- ✓ Consideration: cable is fixed and the headset is not foldable, which affects storage and transport.

Product description

Why choose this headset?

Voxicon USB VXI6B ANC 5-pack is a cost-effective bundle that supplies five wired USB headsets for office and call-center teams. The USB-A connection and in-line controls let you deploy and manage workstations quickly. Noise-canceling boom microphones improve speech clarity in busy environments, while the padded head-band and supraaural cups keep users comfortable through long shifts.

USB VXI6B ANC 5-pack in short:

- Five-unit pack suitable for small teams, hot desks, or call-center deployments.
- USB-A wired connection provides plug-and-play compatibility with standard desktops and softphone setups.
- Noise-canceling boom microphone with in-line mute, answer/end and volume controls for clear, efficient calls.
- Head-band design with supraaural pads and a 1.8 m cable for comfortable, flexible desk placement.
- Consideration: cable is fixed and the headset is not foldable, which affects storage and transport.

Design and comfort

These headsets use a head-band and supraaural ear cups to balance comfort and desk-side visibility. Cushioned pads reduce fatigue during long shifts, and the black finish offers a neutral, professional look that fits most office environments. The non-detachable cable and fixed structure emphasize durability for continuous daily use.

Voice clarity and controls

The boom microphone includes active noise-reduction to focus on the speaker’s voice in noisy surroundings. In-line controls provide immediate access to mute, volume down, volume up, and answer/end functions, so users can handle calls without switching applications. The headset’s drivers deliver consistent audio for speech and conferencing, helping maintain clear communication across calls.

Deployment and compliance

A five-pack simplifies procurement and setup for teams, reducing per-unit cost and ensuring consistent hardware across workstations. USB-A connectivity and a 1.8 m cable make installation straightforward on typical office PCs. The product meets REACH and RoHS sustainability requirements, supporting your compliance priorities while serving office and call-center needs.

Technical Specification Matrix

Header

Manufacturer	Voxicon
--------------	---------
